

Spiral Welded Pipe/Straight Seam Submerged-arc

Welded Pipe Flat Head Chamfering Machine

I. Introduction

Spiral welded pipe/straight seam submerged-arc welded pipe flat head chamfering machine mainly is used to crew cut the pipe end of spiral welded pipe or straight seam submerged-arc welded pipe and finish the edges. The finished edges are homogeneous and beautiful.

II. Main projects and clients

No.	Equipment	Clients	Remark
1	219~720 flat head chamfering machine	Zhongye Liaoning Delong steel pipe Co., Ltd	
2	610~1620 flat head chamfering machine (X60)	Thailand ABLE company	Exported project
3	508~1600 steel pipe flat head machine	Indonesia	
4	508 ~ 1820×20 flat head chamfering machine (X70)	Malaysia	Exported project
5	426 ~ 2438×25 flat head chamfering machine	Haerbin	
6	508~1820 flat head chamfering machine	Hengshui Jinghua pipe manufacturing Co., Ltd	
7	508~1620 flat head chamfering machine	Tianjin Jinghaixian Baolai industrial and trade Co., Ltd	
8	508~2000 flat head chamfering machine mill	Wuxi Yulong steel pipe Co., Ltd	
9	508~2000 flat head chamfering machine	Tianjin Zongshun industrial and trade Co., Ltd	Exported project
10	610 ~ 2400mm flat head chamfering machine (X70)	Thailand ABLE company	Exported project

III. Production process

Loading pipe – connecting pipe – pinching – flat head chamfering – loosening the clamp – exiting the pipe

IV. Available types

No	Model	Specification(m m)	Length(m)	Capacity(Kw)	Area(M ²)
1	LHPT-40 0	Φ219~Φ426	6~12	70	5×23
2	LHPT-65 0	Φ219~Φ630	6~12	80	5×23
3	LHPT-80 0	Φ325~Φ820	6~12	60	5×23
4	LHPT-10 00	Φ426~Φ1020	8~12	70	5×23
5	LHPT-14 00	Φ508~Φ1420	8~12	90	5×23
6	LHPT-18 00	Φ630~Φ1820	8~12	100	5×23
7	LHPT-24 00	Φ720~Φ2400	8~12	150	5×23
8	LHPT-30 00	Φ820~Φ3000	8~12	160	5×23
9	LHPT-35 00	Φ1020~Φ3500	8~12	180	5×25
